**System Equine** has been designing and producing some of the **highest quality stalls in the world for over 30 years**. We are located in a small agricultural town in Ontario, Canada with access to high quality, hardworking people that want to build you and your horses the best and safest equipment possible. **Our team includes some of the most skilled horse stall designers and builders in the world**, that's the System advantage.

When building a stall system **we can start with one of our existing styles, or from our client's ideas and inspirations** for a completely unique design. Our production team manufactures each stall to customers' specifications. Lead times vary, so be sure to start the process early enough to meet any deadlines you may have for your facility's construction.

When you choose System Equine you get the full System experience, which includes **honesty, integrity, and superior design and construction**.

All of our stalls (except the Standard Stall Series) are available in **hot-dipped galvanized or powder-coated finishes in any colour**—a great opportunity to showcase your barn's colours or your own personal style. **Any design can be further customized** by choosing from our selection of partitions and add-ons.

If you have any questions regarding our stalls, please feel free to give us a call or send us an email and one of our experienced sales reps would be more than happy to assist you: **1 (877) 806-9959** or **[sales@systemequine.com](mailto:sales@systemequine.com)**

# Imagine

## Your Imagination is Our Design

We provide excellence from design to completion. **Not seeing exactly what you're looking for?** Maybe you already have your own design in mind, or see characteristics from a number of our stalls that you'd like to combine. **Share your ideas with us** and we can work together to create your dream stall front. **Who knows, we might even name the new stall after your farm!** Many of our current designs were inspired by collaborations between our sales reps and clients. **We are always excited to create something new and unique.** We often start with a simple sketch, then produce a drawing based on that sketch and work with you to come up with a design that is unique to you and your situation.

From traditional to European-inspired styling, **we have a full line of stall designs available** to meet the needs of every type of equestrian facility.

Our horse stalls are offered in a variety of finishes. Choose from a **hot-dipped galvanized finish**, or a **powder-coated paint finish** available in almost any colour.

# Coastal

## Coastal Stall Series

Our **most open-concept stall front** yet, the Coastal Stall Series allows for full socialization and is an excellent choice for housing friendly horses, ponies or miniature horses. With top of the line hardware, **maximized ventilation**, and the ability to add decorative flanges and finials as accents, the Coastal Stall Series can create a **fancy and welcoming atmosphere** for horses and humans alike.

## Accent Options

The Night Lock is a standard feature on all Designer Swing Series stall doors. It is in addition to the plunger latch.

*Make it your own*

# Wellington

## Wellington Stall Series

**Clean lines and an open-concept feel** are the standout characteristics of our Wellington stall series. With its European-inspired elegance, the Wellington is a fantastic choice for those looking for a **classic, uniform style**. Our superior craftsmanship and precision during the manufacturing process shows in every detail, making the Wellington a **timeless option**.

# Venetian

## Venetian Stall Series

This stall series is best known for its **elegance featuring a soft European touch** with its unique, centered door. The finest details have been considered with the design of this masterpiece. **Built with horses' safety and handlers' ease in mind**, this stall is beautiful and functional. The Venetian is a wonderful addition to any stable looking for something that will **elicit awe** in the eyes of all those who visit.

# Maverick

## Maverick Stall Series

Our Maverick stall series is a true statement piece. Its **unique swooping front** creatively sets this design far from the others. If you're looking for something different that is **sure to make everyone's head turn** as they step foot into your stable, then this is the stall for you. The design **allows horses to enjoy the social atmosphere of the barn**, while safely prohibiting them from getting too close to one another.

# Des Coteaux

## Des Coteaux Stall Series

This **classic, elegant design** features centered hinged Dutch-style doors that can be opened together, or the top opened by itself for socialization. This unique characteristic makes this stall a **great choice for those who want their horses to be able to comfortably see outside their stalls,** but also like the option of total confinement. **Add an arched door and vented ash** to really take this design to the next level.

# Nobleman

## Nobleman Stall Series

The European aesthetic on the Nobleman stall series brings a **special sophistication** to any facility. Its **carefully designed features** simply exude grandeur as a whole. The Nobleman's **unique V doors** have the ability to be easily opened, closed, or completely taken off depending on your preferences and needs. **Take this design over the top** with the addition of caps or finials.

# Embleton

## Embleton Stall Series

Our **one of a kind, majestic** Embleton stalls stand tall with a **luxurious stall door** contrasted between **towering posts**. Included hardware features a carefully engineered system that performs at its best every day with its **superior functionality**. The Embleton can easily be customized to meet your requirements and requests, making this design your very own. If you are searching for a **polished stall that truly makes a statement**, look no further.

# Freedom

## Freedom Stall Series

The Freedom stall is named after its **flexibility in design**. Its simplicity allows for countless customization options. Whether you're looking for a no-nonsense stall, or are interested in adding all the bells and whistles, this stall can work for you. It's a **great choice for those on a budget** looking for a quality panel stall. While simple, this design is certainly **not lacking in quality**; it's designed to stand up to regular wear and tear caused by horses.

*Part of our Freestanding Collection*

# Westana

## Westana Stall Series

With its added decorative flanges and feed door, the Westana **expertly combines functionality and aesthetics**, making it an excellent choice when you want something a little more from your stalls but don't want to break the bank. Choose this stall to **achieve that high-end look without the high-end pricetag**. Opt for matching partitions with top and bottom flanges to complete the look.

*Part of our Freestanding Collection*

# Finish Line

## Finish Line Stall Series

While our Finish Line stall series is the **go-to option for most Standardbred and Thoroughbred training centres**, it can be a great choice for other types of equine facilities as well. Its simple design is often the most **economical choice** for many stables. The welded half swing door provides **added ventilation and socialization** to your stalls at an affordable price.

# Competition

## Aluminum Competition Stall Series

Showgrounds, fairs, racetracks, private facilities, and expos all require ease of setup for temporary situations as well as strength and durability. Our Competition stalls and roof structures are **used for events all around the world**. They create a **uniform, clean look** for your show while safely containing the horses. Racks are available for convenient storage and transportation. Choose a complimenting centre alley with roof (right photo) or back-to-back roof structure (below right) to complete your Competition system.

*Part of our Freestanding Collection*

# Braecrest

## Braecrest Stall Series

Our Braecrest design **combines the best features from the Rockwood and Nobleman** stalls. The flanges and contrasting wood on the door make an **elegant statement** in any barn. This design **radiates beauty** with its added bar height, majestic door, and continuous track. The Braecrest is an excellent option for anyone looking for a **simple stall with a classy twist**.

All of our stalls except our Standard stalls feature hidden welds for added strength

*Make it your own*

# Rockwood

## Rockwood Stall Series

**Noted for its strength**, the Rockwood welded stall is always a wise choice for your barn with support posts. **Hidden welds guarantee extra durability** without compromising appearance or the horse's safety. Each bar is secured into pre-punched holes in the U-channel and then welded firmly into place. These are **ideal for high-use training and boarding facilities** where a stronger stall system is required.

# Standard

## Standard Stall Series

Our Standard stall is **our most economical stall front choice** that can easily be retrofitted into any barn, but is **not lacking in quality**. Note that they are easy to assemble, but do require existing posts. We've been providing these stalls for our customers since 1994. It's our most popular kit for those who are budget-conscious. They are **only available in a galvanized finish**, but can be **available to ship within one to two days** via courier or pickup.

# Dutch Doors & Windows

Choosing the correct doors and windows in a barn is an important decision; doors are opened every day, several times a day to let people, horses, and machinery in and out. Our Dutch doors and windows are designed in a way that allows them to be adjusted should your barn shift or sag over time, resulting in a **perfect fit regardless of the circumstances**. Not only are they adjustable, they are the **strongest door currently on the market**. All painted doors use galvanized steel under durable powder coat paint resulting in a very **long lifespan**.

The **quality of our Dutch doors and windows is the best around.** The door jamb around the outside is modeled from a **commercial door frame** and the **heavy-duty hinges** are fully adjustable thanks to a stainless steel hinge pin with a Delran plastic bushing pressed into the centre hole (top middle left photo), providing you with **smooth opening and closing** of your doors and windows for years to come.

Build your own one-of-a-kind door with the help of our wide assortment of high-quality classic door hardware, including hinges, latches, round track, and accessories for sliding and swinging doors. No matter where you are in the world, our heavy-duty door hardware is **designed to operate at its best in all climates.**

We have many styles to choose from, and most hardware is **available both galvanized and powder-coated black** to match your barn's look.

Design the perfect wash stall for your barn and make bathing your horses an **easy, safe, and enjoyable** experience for everyone. At System Equine, you can find everything you need to **bring your wash stall vision to life** or improve your existing one! With the best hoses, shelving, flooring, and heaters available, outfit your wash stall and complete the look of your entire barn.

System Equine has all the accessories you need to keep your tack room **organized** and help you handle your equipment with care. Keep everything **neatly and efficiently stored** with well-designed blanket hangers, saddle racks and bridle hooks and take advantage of our wide variety of wire shelving and rolling carts to make your tack room **accessible** for all.

Choose from **top-of-the-line aisleway flooring** so that your barn makes a statement upon entrance. With multiple colours and varying thickness available, our non-slip interlocking mats are a safe, seamless, and beautiful way to complete your barn.

Reduce slipping, encourage rest, and provide your horses' hard-working joints with relief. **From interlocking mats to StableComfort**, determine the comfort level you are looking for and outfit your horses' stall with one of the many available flooring options at System Equine.

# Odyssey Performance

Odyssey Performance manufactures **premium-quality equine exercise equipment** right here in our manufacturing shop. Their exercisers have been carefully **designed to withstand the abuse of a high-volume facility**. Whether you're training racehorses, exercising sport horses, or rehabilitating horses, Odyssey exercisers are some of the **heaviest-built machines on the market** without compromising wear and tear on strategic parts. Years of upgrading have produced a very balanced machine **capable of running for years with little maintenance**. Also available by Odyssey is the Thunder Spa, a cold salt water spa that helps treat a wide variety of equine conditions and reduces the chance of injury pre- and post-competition.
